Update

Be sure to fill in:

URL merchant — by default, the path to payment <https://payeer.com/merchant/>

Merchant ID — id of your store in the system Payeer.com (you can find in personal account)

Secret key — the secret key of your shop

IP-filter — You can specify the list of all trusted ip addresses of servers, separated by commas. You can also specify a mask instead of the ip address. If the field is empty, checking for trusted ip addresses not performed.

For example:

192.168.71.87, 192.165.83.17, 192.178.34.15

Or 192.*.71.87, 192.165.83.*, 192.*.34.15

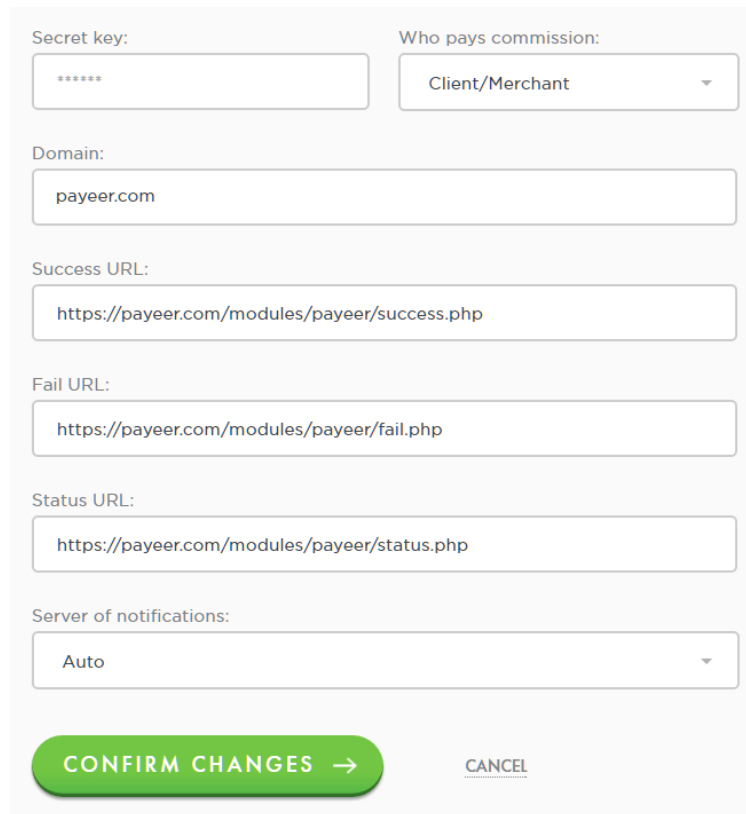

Or *.*.*.* - all available ip addresses

Email for errors – Enter an email address to which to send notifications in the case of payment errors. The letter will state the reason for and basic information about the payment.

If you specify **the path to the file log**, it will be recording information about payments through Payeer.

To save the settings, click "Update".

Then, enter the URL in “Dashboard Payeer → Merchant → Settings”
